

About Groupe Gorgé

Groupe Gorgé is an independent group that specializes in high-tech industries. Today, the Group is active in the fields of security and protection in extreme environments, as well as in the 3D printing sector. It employs around 1,900 people, is located in eight countries and directly exports around 40% of its activity. In its more than twenty-five year history, Groupe Gorgé has always developed and driven the latest technological and industrial innovations.

Smart Safety Systems:

Developing complete, innovative technological solutions for complex missions in hostile and confined environments.

Protection of High-Risk Installations:

Protecting people and ensuring the active and passive protection of installations for energy markets and industrial and tertiary sectors in France. Ensuring the maintenance of these protection systems.

3D Printing:

Enabling major industry players to find new routes to successful innovation and production processes by providing systems, 3D printers and new premium material.

In 2016, the Group reported revenue of €281.2 million. It is backed by 1,900 employees and operations in over ten countries.

Groupe Gorgé unveils Vigians, the new brand identity of the Protection of High-Risk Installations division

Groupe Gorgé (Euronext: GOE) today unveils Vigians, the new brand identity of the Protection of High-Risk Installations division. In continuation of the strengthening of Groupe Gorgé as a major player in the safety of people and property, with the end-2016 merger between the Industrial Projects & Services and Protection in Nuclear Environments divisions, this announcement represents a major milestone in the division's development and highlights its industrial and operational strengthening achieved in 2017.

This new step unites and strengthens the division around a brand that embodies its full range of expertise and drives its ambition in France and abroad: becoming a top player in the design, installation and maintenance of production optimisation and protection systems. The Vigians brand strategy focuses in particular on developing new comprehensive and innovative offers for its clients. Vigians also strives to unite all its employees around shared values and to build a strong employer brand to attract and retain its talent.

VIGIANS

The new brand identity is based on pillars valued by Groupe Gorgé: the engineering of proposed solutions, client relations and the sense of service.

The Vigians identity: a name that expresses strength and dynamism (from the Latin *vigor*: vigour, strength, energy). A name that also calls to mind the vigilance specific to a division focused on protection activities and with a strong client-oriented culture.

The Vigians logo represents both the outlines of a protective fortress and the precision of a target. Outward-looking and modular, it symbolises the alliance between the companies forming the division, as well as the division's constant desire to innovate and build tailored solutions to meet the new requirements of its clients.

A corporate signature: Smarter & Safer. The signature proclaims the promise made to its clients: helping them to reconcile protection and productivity in increasingly hostile environments and within an increasingly restrictive regulatory framework.

A dedicated website will be available in January 2018.

On this occasion, Rodolphe Bassi, Chief Executive Officer of Vigians, said: "*The Groupe Gorgé Protection of High-Risk Installations division is now entering a new era, which builds on its transformation into a global player in protection and productivity. We are constantly innovating to offer the best products and services, and to broaden the scope of possibilities for our clients and employees. The Vigians brand strategy expresses our identity, based on our ingenuity and entrepreneurial culture*".

Disclaimer

GROUPE GORGE press releases may contain forward-looking statements regarding GROUPE GORGE's targets. These forward-looking statements reflect GROUPE GORGE's current expectations. Such forward-looking statements and targets depend on known and unknown risks, uncertainties and other factors that could cause actual results, performance or events to differ materially from those anticipated herein. The risks and uncertainties that could affect the Group's future ability to achieve its targets include, in addition to those indicated in the press release: the strength of competition; the development of markets in which the Group operates and notably the 3D printing division; currency fluctuations; obtaining the export authorizations that may be required for certain activities; control of costs and expenses; changes in tax legislation, laws, regulations or their enforcement; our ability to successfully keep pace with technological advances; our ability to attract and retain qualified personnel and key staff; the evolution, interpretation and uniform application and enforcement of International Financial Reporting Standards (IFRS), according to which we prepare our financial statements; manufacturing and supply chain bottlenecks; the performance of our business partners (subcontractors, agents, suppliers, etc.). Some of these risk factors are set forth and detailed in our Document de Référence (Registration Document including the annual financial report filed with the French Autorité des Marchés Financiers), available on our website www.groupe-gorge.com. This list of risks, uncertainties and other factors is not limitative. Other unanticipated, unknown or unforeseeable factors, such as changes in the economic situation or financial markets, could also have a material adverse effect on our targets.

This press release and the information it contains do not constitute an offer to sell or to subscribe, or a solicitation to purchase or subscribe shares or securities in GROUPE GORGE or in its listed subsidiaries in any country whatsoever.
